

# SPECIALTY BRUSHES

All Masters brushes are designed and manufactured for fast, efficient use. They offer exceptional value for a wide range of industrial applications.

### MASTERS HEAVY DUTY FITTING BRUSH

The highest quality available for cleaning copper fittings. This heavy duty unit is double stem (4 wire) double spiral construction, of heavy gauge galvanized stem wire and oil tempered, high carbon level fill wire. The 4 wire stem is firmly secured in the hand-contoured handle.

### MASTERS TUBE CLEANING BRUSH

Made of tough wire bristle, this time-saver cleans the O.D. of copper tubing instantly and effectively for a better joint.

### MASTERS UTILITY BRUSH

An economical, throw-away, pure bristle brush for a variety of uses. Ideal for applying solvents, stain, paint, plastic pipe solvent cements, bonding agents, resins, adhesives, etc.
